- **Daffodil Delight:** Give it Whirl Dies – Smallest Star x 2
- **Pacific Point:** 1/4" Circle Punch

Instructions

- Fold your black base in half and crease it nicely. Adhere the basic gray 5 1/4" x 4" layer to the front of the card.
- Pick your birthday stamps to put on the outside and inside. Stamp your saying on the outside on the white 5" x 3 ¾" piece towards the bottom center of the card. Stamp your sayings in the inside white 5 1/4" x 4" piece. Adhere both of those to your card.
- Run the basic black 1 1/2" x 3/4" piece through your Stampin' Up Cut & Emboss Machine using the Painted Texture 3D Embossing Folder.
- Punch out all of your pieces using the punches/dies.
- Take the basic gray 1/4" strip and cut 4 pieces at 3/8" for the directional buttons. Snip the end of one side to make the arrow shape.
- Lay your middle rectangle piece and 2 oval pieces on top of your card lining up the sizing of the remote. Adhere those together. Then build all your other punches to complete your remote.
- Use Stampin' dimensionals on the back of the remote to adhere it to the upper part of the top of the card.
